

Mental Health First Aid for Veterans

Mental Health First Aid is a public education program that helps participants identify, understand, and respond to signs of mental illnesses and substance use disorders in military members and veterans. Family members and personnel working with military and family members do not always know how to engage veterans with mental illnesses and addictions. Mental Health First Aid for Veterans focuses on the unique experiences and needs of the military, veteran, and family population.

Participants receive a course manual and certificate.

November 14th, 2015
8:00 am – 5:00 pm
