Building Resilient Families through A hands-on learning experience

Families will enjoy an evening of learning about the resilient and adaptable animals that call the MN Zoo home before bedding down for the night.

Depending on theme of the overnight, families will enjoy learning about the new Hawaiian monk seals and sleep next to the watery world of sharks in Discovery Bay or learn all about what bears eat, how they hunt and where they live before sleeping in the Grizzly Lodge or

Explore the Wells Fargo Family Farm interacting with farm animals, see a cow milking, and camp out in tents near the Farmhouse.

All overnights include **behind the scenes tours**, an **evening snack, breakfast**, an **Animals After Dark t-shirt**, and **admission to the zoo the next day**.
